

Farmilo French Intent Statement

At Farmilo Primary School, we intend for all of our children to develop a positive attitude towards other languages and cultures around the world. We aim to give the children stimulating, engaging and memorable lessons which build their confidence in reading, speaking, listening and writing in French. At Farmilo, we provide children with enriching opportunities to communicate in another language as well as develop the foundations for further language acquisition. We have a diverse student body who speak a multitude of languages so we encourage our pupils to develop an appreciation about the multicultural society that we live in whilst aiming to develop their interest in the world around them. By the time our children leave year six, they will have spoken French to one another in conversation, engaged in role-play, worked together to complete quizzes, played French games and have had the opportunity to ask questions and explore the language themselves.
